# Reduces in-the-box cost. Works for all applications.

PAPERplus® GE is a  
 Greater Efficiency  
 in-the-box paper  
 packaging system  
 that uses less paper  
 and saves you money  
 in these critical areas:  
 material, freight, protection,  
 labor and versatility.

## PAPERplus® GE — A superior and versatile paper packaging material

PAPERplus® GE mattress pads offer reliable protection for all weights and sizes of products making it a versatile asset for any packing environment. In addition they're easier to handle, speeding up packing — even in today's frequently used down-sized cartons.

The chart below shows three packing situations and the benefits you'll experience using PAPERplus® GE over our competitor's paper products.

PAPERplus® GE incorporates a refined version of Storopack's patented crimping technique to produce a resilient paper mattress that provides superior cushioning protection using less paper. That means material and freight cost-savings without compromising protection!

*The smaller GE paper roll compared to a standard roll used with other paper systems.*

Advantages	Packing Light Objects	Packing Heavy Objects	Packing for Void-Fill
<b>Most Cost-Effective</b>	GE 1-Ply <i>Save 15% when compared to other 1-ply paper pads.</i>	GE 2-Ply <i>Save up to 25% when compared to other 2-ply paper pads</i>	GE 1-Ply <i>Save 25-35% over void-fill from a high-speed single-ply paper converter.</i>
<b>Easiest to Use</b>	GE 1-Ply	GE 2-Ply or GE 1-Ply	GE 1-Ply
<b>Best Protection</b>	GE 1-Ply	GE 2-Ply	GE 1-Ply
