PAPERplus® Shooter

- Economical multi-layer void-fill from one-ply paper
- Very fast — variable speed output of 220 - 728 fpm
- Automatically dispenses void-fill into the carton — virtually eliminates manual folding and crumpling
- Two models available:
 - Automatic cutter trims paper with foot pedal control
 - Manual to tear off lengths as needed
- Tabletop and floor stand models to suit any packing environment
- Neat, clean, recyclable

STOROPack

STOROPack

High-speed paper dispensing system

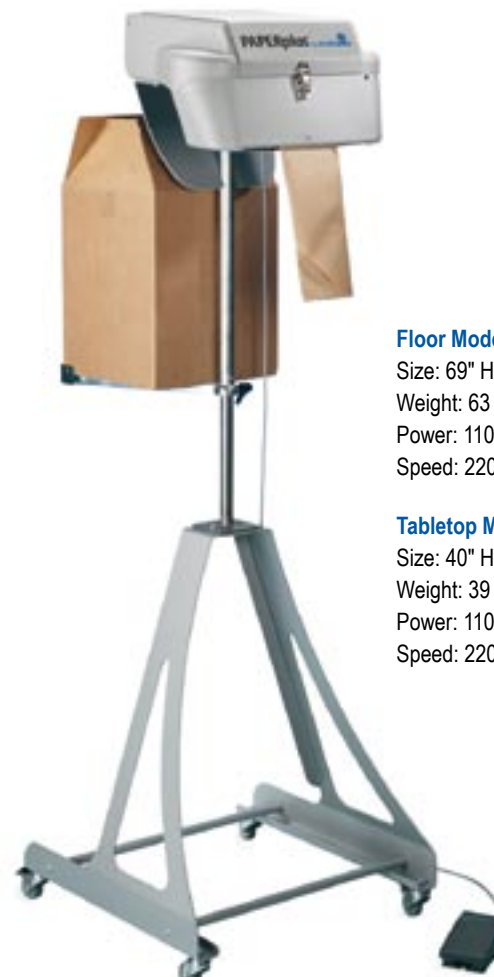

The PAPERplus® Shooter automatically creates multi-layer void-fill from one-ply paper and eliminates slow manual folding, crumpling and packing to save you time and material costs.

PAPERplus® Shooter — Fast filler and flexible features

With lightening speed of up to 728 fpm, the PAPERplus® Shooter boosts packing production by combining high-speed equipment with a unique pulling system that unwinds paper from the inside of the roll to quickly and easily create filler on-demand. Plus, this well constructed, high-tech machine offers flexible features for additional benefits and user comfort.

- Variable speed capability allows operator control in different packing situations
- Paper roll comes in specially designed dispensing carton for fast and easy roll change
- Ergonomic height adjustment for operator comfort
- Free rotating head for packing flexibility
- Hands-free foot pedal operation
- Anti-jam sensor to maintain smooth operation

Floor Model Specifications

Size: 69" H x 24" W x 24" D
Weight: 63 lbs
Power: 110 v
Speed: 220 - 728 fpm

Tabletop Model Specifications

Size: 40" H x 18" W x 24" D
Weight: 39 lbs
Power: 110 v
Speed: 220 - 728 fpm
